INDEPENDENT AUDITORS' REPORT

To the Board of Education Hopkins Public Schools Hopkins, Michigan July 13, 2006

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Hopkins Public Schools, as of and for the year ended June 30, 2006, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Hopkins Public Schools' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Hopkins Public Schools as of June 30, 2006 and the respective changes in financial position, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

544 Cherbourg Drive • Suite 200 • Lansing, Michigan 48917-5010 • (517) 323-7500 • Fax (517) 323-6346 • www.mcecpa.com

In accordance with *Government Auditing Standards*, we have also issued our report dated July 13, 2006, on our consideration of Hopkins Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal controls over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages vi through xiii and page 26, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Hopkins Public Schools' basic financial statements. The additional information on pages 28 to 53 is presented for purposes of additional analysis and is not a required part of the basic financial statements. This additional information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Hopkins Public School District's (HPS) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2006. Please read it in conjunction with the district's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

The 2005-06 school year resulted in an operating deficit in the General Fund for the third consecutive year; which had been anticipated when the original budget was approved. Once again health insurance and pension costs increased greater than 10% as did diesel fuel and heating costs. Revenue increases and student count increases were not sufficient to offset these expenditure changes. The initial budget projection for 2005/06 was for a deficit of \$359,000, while the actual deficit comes in at shortly less than \$236,000. This will reduce the districts General Fund balance to \$2,152,000 or slightly more than 18% of budgeted expenditures.

The Athletic Fund ran an operating deficit of \$7,352.00 for the year as a new soccer program was instituted at the middle school, and will be moving into the high school during 2006/07. The current fund balance in the athletic account is \$11,771.00.

The School Lunch fund had a deficit for the first time in the past three years. An operating loss of \$12,621 reduced the year end fund balance to \$27,109.

In total, District revenues for the 2005/06 school fiscal year for all funds were \$13,683,064 with expenditures equaling \$13,935,239, an excess of expenditures of \$252,265. This was an increase in total revenues of \$685,000 in revenues and increased expenditures of \$858,000 for the fiscal year. The district once again borrowed money from the school bond loan fund (SBLF: \$74,593) which allowed the district to keep the debt millage at 8 mills. Beginning with the 2006/07 school year the district will begin repaying money to the SBLF, an estimated \$58,000 will be repaid in the upcoming year.

Once again the largest increase in revenues came from the Debt Retirement fund where increasing property values led the collection of over \$110,000 more then in 2004/05. In the General fund revenues also increased with a growth of 34 students.

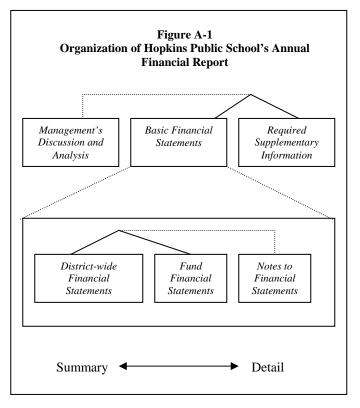

The district sold it's ITFS (instruction & television) license to the Hispanic network during fiscal 05/06 and used this money to establish a Public Improvement fund with a fund balance of \$458,000. This fund will be used for property acquisition or building and site improvements in the future.

During the 2005/06 year the district retired principal of \$784,000 in long term debt. Borrowings from the SBLF of \$74,593 were \$138,000 less then in fiscal 05/06. Fund balances for all district funds increased from \$2,772,195 to slightly over \$3,082,000.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are districtwide financial statements that provide both short-term and longterm information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
- The governmental funds statements tell how basic services like regular and special education were financed in the short-term as well as what remains for future spending.

Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the financial statements with a comparison of the District's budget for the year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

| | Major Features of Dist | Figure A-2 rict-Wide and Fund Financial Sta | atements | | | | |
|--|---|--|---|--|--|--|--|
| Fund Financial Statements | | | | | | | |
| | District-wide Statements | Governmental Funds | Fiduciary Funds | | | | |
| Scope | Entire district (except fiduciary funds) | The activities of the district that are not proprietary or fiduciary, such as special education and building maintenance. | Instances in which the district administers resources on behalf of someone else, such as scholarship programs and student activities monies | | | | |
| Required financial statements | * Statement of net assets * Statement of activities | * Balance sheet * Statement of revenues, expenditures and changes in fund balances | * Statement of fiduciary net assets * Statement of changes in fiduciary net assets | | | | |
| Accounting basis and measurement focus | Accrual accounting and economic resources focus | Modified accrual accounting and current financial resources focus | Accrual accounting and economic resources focus | | | | |
| Type of asset/liability information | All assets and liabilities, both financial and capital, short-term and long-term | Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included | All assets and liabilities, both short-term and long-term | | | | |
| Type of inflow/outflow information | All revenues and expenses during year, regardless of when cash is received or paid | Revenues for which cash received during or soon after the end of the year, expenditures when goods or services have been received and the related liability is due and payable | All additions and deductions during the year, regardless of when cash is received or paid | | | | |

Figure A-2 summarized the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

DISTRICT-WIDE STATEMENTS

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statements of net assets include *all* of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's *net assets* and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements, the District's activities:

Governmental activities – Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state formula aid finance most of these activities.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debts) or to show that it is properly using certain revenues (like school lunch and athletics).

The District has two kinds of funds:

- Governmental funds Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information with the governmental funds statements that explain the relationship (or differences) between them.
- Fiduciary funds The District is the trustee, or fiduciary, for assets that belong to others, such as the scholarship fund and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net assets – District net assets increased to a positive amount during fiscal 2006. Higher repayments of district indebtedness as well as lower borrowing from the school bond loan fund contributed towards that charge.

| Increase in net assets | \$ 276,349 | \$ 248,460 | | | | | |

DISTRICT GOVERNMENTAL ACTIVITIES

Although district fund balances during the 2006 fiscal year grew by more than \$310,000 the district ran significant deficits in the General, School Lunch and Athletic Fund. Only the debt fund increased its fund balance. The remainder of the increase was due to the sale of the district's ITFS license and establishment of a new Public Improvement fund. Despite the deficits the district remains in above average overall financial health with a general fund balance near 19%, well in excess of the Board policies requirement of 15%.

- Student growth remains positive. The district's blended student count (a combination of the winter and fall count during calendar year 2005) has once again increased from 1,512 in fiscal 2005 to 1,546 in fiscal 2006. The increase since 1998 has been from 1,311 in 1998 to 1546, percentage increase of 18% over the past 8 years.
- While the student foundation grant was increased by the state for the first time since 2003 double digit increases in utilities, bus fuel, pension costs and health insurance more than offset that increase.
- The district replaced the school lunch van which, though necessary, helped put the lunch fund into a deficit for 2006. It is expected that prices for lunch will be increased in 2007 to offset higher commodity cost being incurred by the district.
- Soccer was added to the districts athletic mix. As district growth continues, the high school has become a "Class B" district, and additional competitive areas may become necessary.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As mentioned earlier in most district funds, expenditures exceeded revenue during fiscal 2006. While district fund balances remains healthy. The Board of Education and Administration are exploring available options in the Athletic and School Lunch Department. Ongoing negotiations with employee groups are hoped to help the districts General Fund.

General Fund and Budget Highlights

During fiscal 2006 the district's budgets were amended several times to reflect the changes that had major impact upon the district.

Initial amendments were made once the student count, district hiring's and State Aid was known. As utility amounts changed, other amendments were made to recognize those changes as well as other activities taking place throughout the year.

Final budget amendments were proposed in May, and approved by the Board of Education in June. This budget anticipated a deficit of \$288,000 for the year. Final figures shared a deficit of \$236,000.

Overall the districts revenues were \$190,000 higher than was originally anticipated when the original district budget was approved in June 2005. District expenditures increased by \$130,000 over the original approved budget. Much of that increase was the result of much higher natural gas costs, up 14% despite a milder winter, a 10% increase in electric bills and a 35% increase in bus fuel. The increase in students also required an increase in supplies and materials at the different student levels.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

Capital purchases in Fiscal 2006 were again slightly lower than normal because of deficit pressures. Replacement of technology, two new school buses, and a new school lunch van made up the majority of capital spending.

| Table A-5 Hopkins Public School's Capital Assets Net of Depreciation | | | | | |
|--|----|------------|------|-----------|--|
| | | 2006 | | 2005 | |
| Land | \$ | 50,000 | \$ | 50,000 | |

| Transportation equipment | _ | 518,300 | | 529,619 | |
| Total | \$ | 20,140,757 | \$ 2 | 0,842,512 | |

Long-term Debt

At the conclusion of fiscal 2006 the District continued to have over \$23,038,000 in general obligation bonds and long term debt outstanding. This amount was \$653,000 less than the 2005 fiscal year. During fiscal 2006 the district retired \$755,000 in bond principal, but added new borrowings from the School Bond Loan Fund in the amount of \$74,593.

| Table A-6 Hopkins Public School's Outstanding Long-Term Debt | | | | | | | |
|--|----|------------------------------------|----|--------------------------------------|--|--|--|
| | | 2006 | | 2005 | | | |
| General obligation bond (financed with property tax) School bond loan fund Other * | \$ | 16,492,397 5,644,828 901,342 | \$ | 17,276,674 5,349,517 1,066,128 | | | |
| Total | \$ | 23,038,567 | \$ | 23,692,319 | | | |
| * Accrued interest payable, accrued severance pay, accrued compensated absences. | | | | | | | |

FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited the District was aware of several areas which could have a large impact on the 2007 fiscal year and the future.

- The State of Michigan has not yet set a School Aid Act for fiscal 2007.
- District student count is expected to increase in 2007. At this point the economy of the state and this area make it impossible to estimate the extent of the student count change.
- The contracts for teachers as well as the custodial, maintenance and secretarial staff have expired and not yet been settled. Salary and benefit costs are estimated at this time.
- The District has formed a citizens committee to make recommendations to deal with the districts' space need. There may be a need to look at portable classroom units in the near future.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional information, contact the Business Office, Hopkins Public Schools, 400 Clark Street, Hopkins, MI 49328.

HOPKINS PUBLIC SCHOOLS RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2006

| Net change in fund balances total governmental funds | \$ 310,125 |
|---|------------|
| Amounts reported for governmental activities in the statement of activities are different because: Governmental funds report capital outlays as expenditures in the statement of activities. These costs are allocated over their estimated useful lives as depreciation. | |
| Depreciation expense | (850,081) |
| Capital outlay | 148,326 |
| Accrued interest on bonds is recorded in the statement of activities when incurred; it is not | |
| recorded in governmental funds until it is paid: | |
| Accrued interest payable, beginning of the year | 142,688 |
| Accrued interest payable, end of the year | (125,308) |
| Accrued severance pay is recorded in the statement of activities when incurred, but | |
| it is not recorded in the governmental funds until it is paid: | |
| Accrued severance pay, beginning of year | 336,170 |
| Accrued severance pay, end of year | (189,465) |
| Proceeds and repayments of principal on long-term debt are revenues and expenditures in the governmental funds, but not in the statement of activities (where they are additions | |
| and reductions of liabilities): | |
| Principal repayment | 784,277 |
| Proceed from school bond loan fund | (295,311) |
| Revenue is recorded on the accrual method in the statement of activities; in the | |
| governmental funds it is recorded on the modified accrual method and not considered available: | |
| Accrued revenue, beginning of the year | (3,153) |
| Accrued revenue, end of the year | |
| Compensated absences are reported on the accrual method in the statement of activities, | |
| and recorded as an expenditure when financial resources are used in the governmental funds: | |
| Accrued compensated absences, beginning of the year | 729,958 |
| Accrued compensated absences, end of the year | (711,877) |
| Change in net assets of governmental activities | \$ 276,349 |

HOPKINS PUBLIC SCHOOLS STATEMENT OF FIDUCIARY NET ASSETS JUNE 30, 2006

| ASSETS | Private purpose trust fund | Agency funds | |
|--|------------------------------|-----------------|--|
| Cash Land Land improvements Building Building improvements | \$ 37,000 3,522 40,000 1,097 | \$ 46,602 | |
| | \$ 81,619 | \$ 46,602 | |
| LIABILITIES AND NET ASSETS | | | |
| Liabilities: Due to student groups | \$ | \$ 46,602 | |
| Net assets: Reserved for school use | 81,619 | | |
| | \$ 81,619 | \$ 46,602 | |

There was no activity in the private purpose trust fund for the year ended June 30, 2006.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Hopkins Public Schools have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

The Hopkins Public Schools (the "District") is governed by the Hopkins Public Schools Board of Education (the "Board"), which has responsibility and control over all activities related to public school education within the District. The District receives funding from local, state, and federal government sources and must comply with all of the requirements of these funding source entities. However, the District is not included in any other governmental reporting entity as defined by the accounting principles generally accepted in the United States of America. Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and the primary accountability for fiscal matters. In addition, the District's reporting entity does not contain any component units as defined in Governmental Accounting Standards Board Statements No. 14 and 39.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. The government-wide financial statements categorize primary activities as either governmental or business type. All of the District's activities are classified as governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges paid by recipients who purchase, use or directly benefit from goods or services by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. State Foundation Aid, certain revenue from the intermediate school District and other unrestricted items are not included as program revenues but instead as *general revenues*.

In the government-wide statement of net assets, the governmental activities column (a) is presented on a consolidated basis, (b) and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net assets are reported in three parts - invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and fund financial statements (Continued)

The District first utilizes restricted resources to finance qualifying activities.

The government-wide statement of activities reports both the gross and net cost of each of the District's functions. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The statement of activities reduces gross expenses by related program revenues and operating grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants.

The net costs (by function) are normally covered by general revenue (property taxes, state sources, intermediate District sources, interest income and other revenues.)

The District does not allocate indirect costs.

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net assets resulting from the current year's activities.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Governmental Funds - Governmental funds are those funds through which most school District functions typically are financed. The acquisition, use and balances of the school District's expendable financial resources and the related current liabilities are accounted for through governmental funds.

Other Non-major Funds

The *special revenue funds* account for revenue sources that are legally restricted to expenditures for specific purposes (not including expendable trusts or major capital projects). The District accounts for its food service and athletic activities in the special revenue funds.

The *debt service fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and fund financial statements (Concluded)

Fiduciary funds account for assets held by the District in a trustee capacity or as an agent on behalf of others. Trust funds account for assets held by the District under the terms of a formal trust agreement. Fiduciary funds are not included in the government-wide statements.

The *private purpose trust fund* is accounted for using the accrual method of accounting. Nonexpendable trust funds account for assets where only the interest may be spent. These funds are not reported on the District's financial statements. The District's trust fund currently holds assets donated to the District.

The *agency fund* is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual method of accounting. This fund is used to account for assets that the District holds for others in an agency capacity (primarily student activities).

C. Measurement Focus, Basis of Accounting and Basis of Presentation

Accrual Method

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Government Accounting Standards Board.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Concluded)

Modified Accrual Method

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, state and federal aid and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

State Revenue

The State of Michigan utilizes a foundation grant approach which provides for a specific annual amount of revenue per pupil based on a statewide formula. The Foundation is funded from state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of state funds to school districts based on information supplied by the districts. For the year ended June 30, 2006, the foundation allowance was based on pupil membership counts taken in February and September of 2005.

The state portion of the foundation is provided primarily by a state education property tax mileage of 6 mills and an allocated portion of state sales and other taxes. The local portion of the foundation is funded primarily by non-homestead property taxes which may be levied at a rate of up to 18 mills. The State revenue is recognized during the foundation period and is funded through payments from October 2005 to August 2006. Thus, the unpaid portion at June 30th is reported as due from other governmental units.

The District also receives revenue from the state to administer certain categorical education programs. State rules require that revenue earmarked for these programs be used for its specific purpose. Certain governmental funds require an accounting to the state of the expenditures incurred. For categorical funds meeting this requirement, funds received, which are not expended by the close of the fiscal year are recorded as deferred revenue. Other categorical funding is recognized when the appropriation is received.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Other Accounting Policies

1. Cash and equivalents include amounts in demand deposits and certificates of deposit.

The District reports its investments in accordance with GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools and GASB Statement No. 40, Deposit and Investment Risk Disclosure. Under these standards, certain investments are valued at fair value as determined by quoted market prices, or by estimated fair values when quoted market prices are not available. The standards also provide that certain investments are valued at cost (or amortized cost) when they are of a short-term duration, the rate of return is fixed, and the district intends to hold the investment until maturity. Accordingly, investments in banker acceptances and commercial paper are recorded at amortized cost.

State statutes authorize the District to invest in bonds and other direct and certain indirect obligations of the U.S. Treasury; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, savings and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or National Credit Union Administration, respectively; in commercial paper rated at the time of purchase within the three highest classifications established by not less than two standard rating services and which matures not more than 270 days after the date of purchase. The District is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

2. Property Taxes

Property taxes levied by the District are collected by various municipalities and periodically remitted to the District. The taxes are levied and become a lien as of July 1 and December 1 and are due upon receipt of the billing by the taxpayer and become a lien on the first day of the levy year. The actual due dates are September 14 and February 14, after which time the bills become delinquent and penalties and interest may be assessed by the collecting entity.

For the year ended June 30, 2006, the District levied the following amounts per \$1,000 of assessed valuation:

| Fund | Mills |
|---|-------|
| General Fund - Non-homestead | 18.0 |
| Debt service fund - Homestead and non-homestead | 8.0 |

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Other Accounting Policies (Continued)

3. Inventories and Prepaid Items

Inventories are valued at the lower of cost (first-in, first-out) or market. Inventories in the special revenue funds consisting of expendable supplies held for consumption, are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenditures.

4. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

5. Capital Assets

Capital assets purchased or acquired are capitalized at historical cost or estimated historical cost. Donated fixed assets are valued at their estimated fair market value on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets.

Depreciation on all assets is provided on the straight-line basis over the estimated useful lives as follows:

Buildings and additions 50 years Furniture and other equipment 5 - 15 years

The District's capitalization policy is to capitalize individual amounts exceeding \$5,000. Group purchases are evaluated on a case-by-case basis.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concluded)

D. Other Accounting Policies (Concluded)

6. Compensated Absences

The District's policies generally provide for granting vacation and sick leave with pay. The current and long-term liability for compensated absences is reported on the government-wide financial statements. A liability for these amounts, including related benefits, is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations or retirements.

7. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net assets. Bond premiums and discounts, as well as issuance costs and the difference between the reacquisition price and the net carrying amount of the old debt, are deferred and amortized over the life of the bonds using the straight-line method over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenditures. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the general, special revenue and debt service funds.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Concluded)

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Superintendent submits to the School Board a proposed operating budget for the fiscal year commencing on July 1. The operating budget includes proposed expenditures and the means of financing them. The level of control for the budgets is at the functional level as set forth and presented as required supplementary information.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. Prior to July 1, the budget is legally adopted by School Board resolution pursuant to the Uniform Budgeting and Accounting Act (1968 PA 2). The Act requires that the budget be amended prior to the end of the fiscal year when necessary to adjust appropriations if it appears that revenues and other financing sources will be less than anticipated or so that expenditures will not be in excess of original estimates. Expenditures shall not be made or incurred, unless authorized in the budget, in excess of the amount appropriated. Violations, if any, are noted in the required supplementary information section.
- 4. The Superintendent is authorized to transfer budgeted amounts between major expenditure functions within any fund; however, these transfers and any revisions that alter the total expenditures of any fund must be approved by the School Board.
- 5. Formal budgetary integration is employed as a management control device during the year for the general, special revenue and debt service funds.
- 6. The budget was amended during the year with supplemental appropriations, the last one approved prior to June 30, 2006. The District does not consider these amendments to be significant.

Excess of expenditures over appropriations in budgeted funds - During the year, the local governmental unit incurred expenditures in certain budgeted funds which were in excess of the amounts appropriated as follows:

| | | Budget | Actual | | Budget |
|-------------------------------|----|-------------|--------------|----|-----------|
| Budgeted item | ap | propriation | expenditure | _ | variable |
| General fund - basic programs | \$ | 5,580,000 | \$ 5,821,880 | \$ | (241,880) |
| General fund - added needs | | 1,125,000 | 1,148,021 | | (23,021) |

NOTE 3 - DEPOSITS AND INVESTMENTS

As of June 30, 2006, the District had the following investments.

| Investment Type | Fair value | Weighted average maturity (years) | Standard & Poor's Rating | % |
|--|------------|--|--------------------------------|--------|
| Money markets: Guaranteed investment contracts | \$ 634,806 | 0.14 | A1+ | 100.0% |
| Portfolio weighted average maturity | | 0.14 | | |

Interest rate risk. In accordance with its investment policy, the District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and, investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools and limiting the average maturity in accordance with the District's cash requirements.

Credit risk. State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations (NRSROs).

Concentration of credit risk. The District will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the District's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

Custodial credit risk - deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2006, \$1,718,539 of the District's bank balance of \$2,118,539 was exposed to custodial credit risk because it was uninsured and uncollateralized. Interest bearing accounts and certificates of deposit are included in the above totals.

NOTE 3 - DEPOSITS AND INVESTMENTS (Continued)

Custodial credit risk - investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The District will minimize custodial credit risk, which is the risk of loss due to the failure of the security issuer or backer, by; limiting investments to the types of securities allowed by law; and pre-qualifying the financial institutions, broker/dealers, intermediaries and advisors with which the District will do business.

The District's Guaranteed Investment Contract is collateralized and invested for the purpose of paying off the note payable disclosed in Note 5.

The Investment Agreement was dated as of August 19, 2005, by and among J.P.Morgan Trust Company, National Association, as the Depository on behalf of both the participating Michigan School Districts and the Michigan Municipal Bond Authority, and Citigroup Global Markets, Inc., as Provider.

The net proceeds from the sale of the Series B-1 Notes were loaned by the Authority to Michigan School Districts. Such loans were repaid with monthly set-a-side installments deposited with the Depository for investment under the Investment Agreement. Set-a-side installments are deposited under the Investment Agreement versus Permitted Investments (collateral securities) equaling at least 102% of the deposited amount and such Permitted Investments are held by the Depository in a fiduciary capacity.

The Guaranteed Rate under this Investment Agreement (commonly referred to as guaranteed investment contract-GIC or collateralized investment agreement-CIA) is 4.09% (simple interest actual days elapsed over a 365-day year).

The Guarantor is Citigroup, Inc., as guarantor of the Provider's obligations under this Investment Agreement.

Foreign currency risk. The District is not authorized to invest in investments which have this type of risk.

NOTE 3 - DEPOSITS AND INVESTMENTS (Concluded)

A reconciliation of cash and investments as shown on the combined statement of net assets follows:

| Carrying value: | |
|---|-----------------|
| Cash on deposit with insurance company | \$ 33,600 |
| Cash on hand | 200 |
| Carrying amount of deposits: Checking | 330,026 |
| Carrying amount of deposits: Money markets and CD's | 1,335,593 |
| Carrying amount of investment | 634,806 |
| Total | \$ 2,334,225 |
| Per financial statements: | |
| Cash - including agency funds of \$46,602 | \$ 1,699,419 |
| Investments | 634,806 |
| Total | \$ 2,334,225 |

NOTE 4 - CAPITAL ASSETS

A summary of changes in the District's capital assets follows:

| | Balance July 1, 2005 | Additions | Deletions | Balance June 30, 2006 |
|--|-------------------------|--------------|-----------|-----------------------|
| Assets not being depreciated - land | \$ 50,000 | \$ | \$ | \$ 50,000 |
| Construction in progress | 92,368 | | 92,368 | |
| Total capital assets not being depreciated | 142,368 | | 92,368 | 50,000 |
| sems depreciated | 112,500 | | <u> </u> | 20,000 |
| Other capital assets: | | | | |
| Buildings and additions | 23,895,624 | 59,080 | | 23,954,704 |
| Furniture and equipment | 1,376,479 | 35,140 | | 1,411,619 |
| Transportation equipment | 1,520,509 | 146,474 | 106,508 | 1,560,475 |
| Subtotal | 26,792,612 | 240,694 | 106,508 | 26,926,798 |
| Accumulated depreciation: | | | | |
| Buildings and additions | 4,282,739 | 471,576 | | 4,754,315 |
| Furniture and equipment | 818,839 | 220,712 | | 1,039,551 |

| Net capital assets | \$ 20,842,512 | \$ (609,387) | \$ 92,368 | \$ 20,140,757 |

Depreciation for the fiscal year ended June 30, 2006 amounted to \$850,081.

Depreciation expense was charged to programs of the primary government as follows:

| Instruction | \$ 32,439 |
|--------------------------|---------------|
| Support services | 594,410 |
| Athletics | 32,907 |
| Unallocated depreciation | 190,325 |
| | |
| Total depreciation | \$ 850,081 |

NOTE 5 - RECEIVABLES

Receivables at June 30, 2006 consist of the following:

| | General fund |
|--|-----------------------|
| State Aid - State of Michigan Other governmental units | \$1,889,705 13,767 |
| | \$1,903,472 |

Amounts due from other governmental units include amounts due from federal, state and local sources for various projects and programs.

No allowance for doubtful accounts is considered necessary.

NOTE 6 - NOTE PAYABLE

At June 30, 2006, the District has outstanding a \$720,000 revenue note (state-aid note). The note, which has an interest rate of 2.87%, matures August 18, 2006. The District has \$634,806 of funds on deposit in a guaranteed investment contract with a financial institution, which are included in investments on the general fund balance sheet, to pay-off the note. The note is secured by the full faith and credit of the District as well as pledged state aid.

| Balance e 30, 2005 | A | dditions | P | ayments | | Balance e 30, 2006 |
|-----------------------|----|----------|----|---------|----|-----------------------|
| \$ 840,000 | \$ | 720,000 | \$ | 840,000 | \$ | 720,000 |

NOTE 7 - LONG-TERM DEBT AND LOANS PAYABLE

The District issues general obligation bonds to provide funds for the acquisition, construction and improvement of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the District. Long-term obligations currently outstanding are as follows:

| 1996 general obligation bonds due in an annual installment of \$700,000 through May 1, 2007 with interest at 6.25% | \$ 700,000 |
|---|-------------------------------------|
| 1998 general obligation refunding bonds due in annual installments of \$60,000 to \$415,000 through May 1, 2026 with interest at 4.0% to 4.65% | 7,945,000 |
| 1999 general obligation refunding bonds due in annual installments of \$45,000 to \$440,000 through May 1, 2026 with interest at 4.05% to 4.75% | 7,795,000 |
| Total general obligation bonds | 16,440,000 |
| 1998 limited obligation bonds (Durant bonds) due in annual installments of \$6,481 to \$8,569 through May 1, 2013 with interest at 4.76%. Certain state aid payments have been pledged as security. | 52,397 |
| Borrowings from the State of Michigan under the School Bond Loan Fund, including interest | 5,644,828 |
| Accrued retirement benefits: Obligation under contract for compensated absences and retirement | |
| incentives | 711,877 |
| Obligation under contract for severance pay | 189,465 |
| | ф 22 020 7 7 7 |
| Total general long-term debt | \$ 23,038,567 |

The District has entered into voluntary termination benefit arrangements with certain employees. The original agreement provides for a total payment to each individual of one years salary. This amount is paid out over four equal payments. There are currently seven employees entitled to future payments. The liability has been recorded at the face amount, as the discounted present value approximates the face amount of the liability.

NOTE 7 - LONG-TERM DEBT AND LOANS PAYABLE (Continued)

The annual requirements to amortize the long-term obligations as of June 30, 2006, including interest of \$7,903,621, are as follows:

| Year ending | |
|--|--------------|
| June 30, | Total |
| | |
| 2007 | \$ 1,563,956 |
| 2008 | 1,540,985 |
| 2009 | 1,507,164 |
| 2010 | 1,468,131 |
| 2011 | 1,463,897 |
| 2012-2016 | 6,657,021 |
| 2017-2021 | 5,602,522 |
| 2022-2026 | 4,592,342 |
| | |
| | 24,396,018 |
| Borrowings from the State of Michigan under the School Bond Loan Fund, | |
| including interest | 5,644,828 |
| Accrued retirement benefits: | 3,044,020 |
| Obligation under contract for compensated absences and retirement incentives | 711,877 |
| Obligation under contract for severance pay | 189,465 |
| Congation under contract for severance pay | 107,703 |
| Total general long-term debt and interest | \$30,942,188 |

An amount of \$432,765 is available in the debt service fund to service the general obligation debt. Interest expense for all funds for the year ended June 30, 2006 was \$1,049,188. Also, the 1998 limited obligation bonds (Durant bonds) can be paid only through annual appropriations from the State of Michigan.

NOTE 7 - LONG-TERM DEBT AND LOANS PAYABLE (Concluded)

The following is a summary of the changes in liabilities reported in the general long-term debt account group:

| | Balance June 30, 2005 | Additions | Reductions | Balance June 30, 2006 | Due within one year |
|-------------------------------------|-----------------------|------------|------------|-----------------------|---------------------|
| General obligation bonds | \$ 17,195,000 | \$ | \$ 755,000 | \$ 16,440,000 | \$ 805,000 |
| Limited obligation bonds | 81,674 | | 29,277 | 52,397 | 6,481 |
| School bond loan fund | 5,349,517 | 295,311 | | 5,644,828 | |
| Accumulated unpaid sick pay | 539,458 | | 24,581 | 514,877 | 33,748 |
| Accrued early retirement incentives | 190,500 | 6,500 | | 197,000 | |
| Severance pay | 336,170 | | 146,705 | 189,465 | 113,925 |
| Totals | \$ 23,692,319 | \$ 301,811 | \$ 955,563 | \$ 23,038,567 | \$ 959,154 |

At June 30, 2006 outstanding general obligation bonds of \$15,050,000 relating to the 1996 issue are considered to be defeased.

NOTE 8 - EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PLAN

<u>Plan Description</u> - The District contributes to the statewide Michigan Public School Employees' Retirement System (MPSERS), a cost sharing multiple-employer state-wide defined benefit public employee retirement plan governed by the State of Michigan. The MPSERS provides retirement survivor and disability benefits and postretirement benefits for health, dental and vision for substantially all employees of the District. The MPSERS was established by Public Act 136 of 1945 and operated under the provisions of Public Act 300 of 1980, as amended. The MPSERS issues a publicly available financial report that includes financial statements and required supplementary information for MPSERS. That report may be obtained by writing to Michigan Public School Employees Retirement System, P.O. Box 30171, Lansing, Michigan 48909-7671 or by calling (800) 381-5111.

Funding Policy - Member Investment Plan (MIP) members enrolled in MIP prior to January 1, 1990 contribute a permanently fixed rate of 3.9% of gross wages. The MIP contribution rate was 4.0% from January 1, 1987, the effective date of the MIP, until January 1, 1990 when it was reduced to 3.9%. Members first hired January 1, 1990 or later and returning members who did not work between January 1, 1987 through December 31, 1989 contribute at the following graduated permanently fixed contribution rate: 3% of the first \$5,000; 3.6% of \$5,001 through \$15,000; 4.3% of all wages over \$15,000.

NOTE 8 - EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PLAN (Concluded)

Basic Plan members make no contributions. For a limited period ending December 31, 1992, an active Basic Plan member could enroll in the MIP by paying the contributions that would have been made had enrollment occurred initially on January 1, 1987 or on the date of hire, plus interest. MIP contributions at the rate of 3.9% of gross wages begin at enrollment. Actuarial rate interest is posted to member accounts on July 1st on all MIP monies on deposit for 12 months. If a member leaves MPSERS service and no pension is payable, the member's accumulated contribution plus interest, if any, are refundable.

The District is required to contribute the full actuarial funding contribution amount to fund pension benefits, plus an additional amount to fund retiree health care benefit amounts on a cash disbursement basis. The rates for the year ended June 30, 2006 were 14.87% of payroll through September 30, 2005 and 16.34% effective October 1, 2005 through June 30, 2006. The contribution requirements of plan members and the District are established and may be amended by the MPSERS Board of Trustees. The District contributions to MPSERS for the year ended June 30, 2006, 2005 and 2004 were \$1,058,970, \$922,963, and \$812,710, respectively, equal to the required contribution for each year.

The District is not responsible for the payment of retirement benefits which is the responsibility of the State of Michigan.

Other Post-employment Benefits - Retirees have the option of health coverage, which is funded on a cash disbursement basis by the employers. The System has contracted to provide the comprehensive group medical, hearing, dental and vision coverages for retirees and beneficiaries. A significant portion of the premium is paid by the System with the balance deducted from the monthly pension.

NOTE 9 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. With regard to injuries to employees, the District participates in an association of educational institutions within the State of Michigan for self-insuring workers' disability compensation. The association is considered a public entity risk sharing pool. The District pays annual premiums to the association for its workers' disability compensation coverage. In the event the association's total claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the policy year may be subject to special assessment to make up the difference. The association maintains reinsurance for claims in excess of \$500,000 for each occurrence with the overall maximum coverage being unlimited. The District has not been informed of any special assessments being required. Participant's annual dental and vision benefits are limited.

HOPKINS PUBLIC SCHOOLS NOTES TO FINANCIAL STATEMENTS

NOTE 9 - RISK MANAGEMENT (Concluded)

Hopkins Public Schools is self insured for dental and vision claims. Claims for the year ending June 30, 2006 and 2005 were approximately \$232,505 and \$175,103, respectively. The estimated liabilities for claims incurred but unreported as of June 30, 2006 and 2005 is not significant.

The District continues to carry commercial insurance for all other risks of loss, including property and casualty and other employee health and accident insurance.

NOTE 10 - TRANSFERS

The general fund transferred \$36,538 to the special revenue fund, \$19,000 to the school lunch fund and \$17,538 to the athletics fund to cover operating deficits.

NOTE 11 - INTERFUND RECEIVABLES AND PAYABLES

Interfund payable and receivable balances at June 30, 2006 are as follows:

| Payable fu | nd | | Receiva | ble fund | |
|-------------------------|----|-----------------|-------------------------|----------|-----------------|
| General Food service | \$ | 20,309 9,068 | Food service General | \$ | 20,309 9,068 |
| | \$ | 29,377 | | \$ | 29,377 |

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All amounts are expected to be repaid within one year.

The above bond issue bears interest at 4.76%. The bond proceeds were used for erecting, furnishing and equipping additions to buildings and developing and improving the site.

This bond, including the interest hereon, is issued in anticipation of payments appropriated and to be appropriated by the State under Section 11g(3) of Act 94 to the School District (the State Aid Payments). The School District hereby pledges and assigns to the Authority all of its rights to and in such State Aid Payments as security for this bond and the State Aid Payments which are hereby pledged shall be subject to a statutory lien in favor of the Authority as authorized by Act 94. This bond is a self-liquidating bond and is not a general obligation of the School District and does not constitute an indebtedness of the School District within any constitutional or statutory limitation, and is payable both as to principal and interest, solely from such State Aid Payments. The School District, as requested by the Authority, hereby irrevocably authorizes the payment of the State Aid Payments directly to the Authority's Depository.

HOPKINS PUBLIC SCHOOLS SCHEDULE OF BORROWINGS – STATE OF MICHIGAN SCHOOL BOND LOAN FUND JUNE 30, 2006

Amounts needed for the payment of bond principal and interest in excess of receipts from property taxes are borrowed from the Michigan School Bond Loan Fund. These loans, together with accrued interest payable thereon, are to be repaid when the debt retirement millage rate provides funds in excess of the amounts needed to pay current bond maturities and interest. The borrowings from the State of Michigan under this program have been summarized as follows:

| Year ended June 30, | Loan proceeds | | _ | Accrued interest | | Net increase | | Balance | |

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Education Hopkins Public Schools Hopkins, Michigan July 13, 2006

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information as of and for the year ended June 30, 2006, which collectively comprise Hopkins Public Schools basic financial statements and have issued our report thereon dated July 13, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Hopkins Public School's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Board of Education Hopkins Public Schools Hopkins, Michigan

July 13, 2006

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Hopkins Public School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Hopkins Public Schools in a separate letter dated July 13, 2006.

This report is intended solely for the information of the Board of Education, management, U.S. Department of Education and Michigan Department of Education and is not intended to be and should not be used by anyone other than these specified parties.

July 13, 2006

To the Board of Education Hopkins Public Schools Hopkins, Michigan

In planning and performing our audit of the financial statements of Hopkins Public Schools for the year ended June 30, 2006, we considered the District's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control.

However, during our audit we became aware of certain matters that are opportunities for strengthening internal controls and operating efficiency. The comments and suggestions regarding those matters follow. This letter does not affect our report dated July 13, 2006, on the financial statements of Hopkins Public Schools.

Athletic Gate Receipts

Currently the District is using clickers to reconcile the amount of money collected at sporting events to the number of people paying for entry. This method does not leave an audit trail and if there were ever a problem it would be difficult to pin point where the problem occurred. The District should monitor the accuracy of the system and consider modifications if reconciliations are difficult or inconsistent.

Food Service Receipts

At present, the lead kitchen staff collects money from the classrooms at the elementary schools and proceeds to count this money and adjust the appropriate student accounts. We suggest that someone without the ability to adjust the students accounts collects and counts the money and then gives the data to another person to adjust the student balances.

2

Budget Enforcement by the Michigan Department of Education

The Michigan Department of Education is changing their enforcement and monitoring of budget violations. They are currently focusing on total expenditures violations that exceed 1% of the total expenditures budget and total other financing uses that exceed 1% of the total other financing uses budget. The Department of Education will be issuing letters to school board presidents, the superintendent and the chief business official when they identify these types of violations.

Currently identified violations of the Act include, but are not limited to:

- Incurring expenditures in excess of the appropriation approved by the school board (Overspending your budget by line item).
- Ending the fiscal year with a deficit (negative fund balance).
- Adopting a budget that, when implemented, would put the district in a deficit.

The Department is also currently reviewing their interpretation of Section 17(2). This would be a situation where a District's actual revenues were less than budgeted revenues and, at the same time, depleted the district fund balance, beyond what was approved in total by the school board.

We recommend you continue to review your current budget amendments during the year. There will be situations where there continue to be budget violations as disclosed in footnote 2 subsection 3 of the financial statements. While there may be technical violations of the act we believe the District's current budget procedures should be monitored during the year to avoid budget violation letters from the Michigan Department of Education.

3

Cash Management - Federal Awards

The Michigan Department of Education has recently been notified that it, along with all other states, has misinterpreted the advance provision of the Cash Management Improvement Act (CMIA). The United States Department of Education started monitoring and auditing CMIA compliance and is notifying sub-recipients that advances are limited to three days cash needs. In other words, funds must be spent by the district within 72 hours of being drawn down from the USDE GAPS system. Because of this new awareness, the department will no longer allow 30-day cash advances for ongoing programs during FY 2006/2007. Thirty-day cash advances may be permitted for new one-time federal grant programs at the discretion of program management. We suggest the district request funds on a reimbursement basis in order to ensure compliance with the cash management requirements.

New Auditing Standards

Recently, 10 new auditing standards have been released and will become effective over the District's next two fiscal years. In reviewing the new standards, we do not believe, for the most part, they will have a significant impact on our overall audit approach. However, two of the new standards may directly impact the District beginning with the June 30, 2007 year-end.

One of the new standards revises the dating of the auditors' report. Under the old standards, the auditors' report was dated the last day of fieldwork. The new standards define the date as the date adequate audit evidence is obtained. Adequate audit evidence is now being interpreted as including the client's approval of draft financial statements. Although the dating of the report may seem trivial to non-auditors, it does have an impact on auditors' subsequent events work (June 30 through date of the auditors' report). The impact to the District could be if there was a long period of time needed to resolve certain open issues. This would extend the dating of the auditors' report and increase the amount of work we need to complete our subsequent events work.

4

Another standard effective for the June 30, 2007 year-end is related to our communications with the client. The new standard retained the definition of a "material weakness" and added two new categories of deficiencies "significant deficiency" and "control deficiency". Certain situations were included as examples of strong indicators of significant deficiencies and possibly material weaknesses. One of the situations is the client is unable to write financial statements, including the footnotes, in accordance with generally accepted accounting principles. Historically, we have prepared the financial statements and footnotes for the District. We will have to evaluate the District's ability to produce appropriate financial statements and footnotes and, accordingly, if any control deficiencies exists.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various District personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

This report is intended solely for the information and use of Hopkins Public Schools, management, and others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.

July 13, 2006

To the Finance Committee Hopkins Public Schools Hopkins, Michigan

We have audited the financial statements of Hopkins Public Schools for the year ended June 30, 2006, and have issued our report thereon dated July 13, 2006. Professional standards require that we provide you with the following information related to our audit.

1. <u>Our Responsibility under Auditing Standards Generally Accepted in the United States of America and Government Auditing Standards.</u>

As stated in our engagement letter, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement and are fairly presented in accordance with accounting principles generally accepted in the United States of America. Because an audit is designed to provide reasonable, but not absolute, assurance and because we did not perform a detailed examination of all transactions, there is a risk that material errors, fraud, or other illegal acts may exist and not be detected by us.

As part of our audit, we considered the internal control of Hopkins Public Schools. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of Hopkins Public Schools compliance with certain provisions of laws, regulations, contracts, and grants. However, the objective of our tests was not to provide an opinion on compliance with such provisions.

2. Significant Accounting Policies

Management has the responsibility for selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Hopkins Public Schools are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2006. We noted no transactions entered into by Hopkins Public Schools during the year that were both significant and unusual, and of which, under professional standards, we are required to inform you, or transactions for which there is a lack of authoritative guidance or consensus.

3. <u>Accounting Estimates</u>

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

2

Management's estimated liability of compensated balances at June 30, 2006. The estimated liability is \$711,877.

4. Audit Adjustments

For purposes of this letter, professional standards define an audit adjustment as a proposed correction of the financial statements that, in our judgment, may not have been detected except through our auditing procedures. An audit adjustment may or may not indicate matters that could have a significant effect on Hopkins Public Schools financial reporting process (that is, cause future financial statements to be materially misstated). In our judgment, none of the adjustments we proposed, whether recorded or unrecorded by Hopkins Public Schools, either individually or in the aggregate, indicate matters that could have a significant effect on Hopkins Public Schools financial reporting process.

5. <u>Disagreements with Management</u>

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

6. <u>Consultations with Other Independent Accountants</u>

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to Hopkins Public Schools financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

7. <u>Issues Discussed Prior to Retention of Independent Auditors</u>

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as Hopkins Public Schools auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

8. <u>Difficulties Encountered in Performing the Audit</u>

We encountered no significant difficulties in dealing with management in performing and completing our audit.

This information is intended solely for the use of the Finance Committee, Board of Directors, and management of Hopkins Public Schools and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Maner, Costrison & Ellis, P.C.
